Selfkant, den 26.4.2022

In the military appeal proceedings

of the Mr ...

AZ.

and

of the Mr ...

AZ. ...

it should only be noted with regard to the statements of the discerning senate in its communication of 24.3.2022, there in the 1st paragraph on page 2, that we can of course also assume the allegations on which the data analyst Tom Lausen has been appointed as an expert to be true and put them beyond dispute.

The data he has produced, which we have presented, are clearly substantiated, and they show that two of the central claims used to justify the pandemic theatre of the last two years, and thus ultimately also the alleged need to inject the population as widely as possible with highly experimental agents, were and are demonstrably false: at no time since March 2020 has there been a threat of overloading the health service and intensive care units.

This was obviously a politically motivated lie motivated by economic interests of the pharmaceutical industry.

If there had been no test pandemic with inadequate tests, then given an IFR of this supposed coronavirus "pandemic" of 0.15% in the last two, humanity would not even have noticed that we have a strong "flu wave".

This IFR of 0.15 % should also be made indisputable, because otherwise we will call Prof. John P.A. Ionannidis as an expert witness in the main proceedings. He could then certainly be connected via video conference.

If we find the allegations of Tom Lausen, SV, undisputed, then we may hear Susanne Wagner, MD, SV, in his stead on 2/5/2022 on the evidentiary issues on which I called her as an expert witness in my brief of 4/14/2022.

Susanne Wagner, M.D., would be on-site as a present witness "on call" for the 5/2/2022 hearing.
